Trusted NMFS PIC Sender - NOAA Service Account <trusted.nmfs.pic.sender@noaa.gov> Thu, Feb 27, 2025 at 12:55 PM
To: _NMFS PIC <nmfs.pic@noaa.gov>

Dear PIFSC,

It is with a heavy heart that we inform you that five PIFSC employees who were on probation have received notification that they have been let go. We understand that changes like this can create uncertainty, and we want to assure you that we are committed to providing clarity as soon as we can.

Out of respect for the privacy of those impacted, we ask that you refrain from speculation or discussing details that may not be fully known. These individuals are valued members of our team, and we are grateful for their contributions. If you have any questions or concerns, we encourage you to reach out to any of us on the PIFSC Board of Directors.

We recognize that transitions like these can be difficult, and we want to support you all in every way we can. As we learn more we are committed to sharing what we can, and in the meantime, please know that we appreciate your professionalism, compassion, and dedication to our shared work.

Thank you for being part of this team.

Sincerely,

Charles and Tia

To: _NMFS PIC FRMD <nmfs.pic.frmd@noaa.gov>

Dear FRMD,

It is with great sadness and heavy heart that I inform you that Rhane Malae <rhanemalae15@gmail.com> and Frank Villagomez <fcvillagomez@gmail.com> were let go today as they were in their 1 year probationary period. Rhane and Frank represented everything that is positive about our mission, conducting science for and with the people and communities. The positions they held represented our push for inclusivity with the fishing communities in the Pacific Islands Region for which we serve.

Please reach out to me or talk with Marlowe, he has been in direct communication with Rhane and Frank. I have provided their personal emails if you would like to reach out.

Sincerely,
T.Todd
